Including delivery

Streetpark is the hardwearing luminaire for car parks, outdoor recreation areas and perimeter lighting. An adjustable bracket allows installation on 60mm diameter posts and arms at a wide range of positions, with both symmetric and asymmetric light distribution available using special lenses. The hardened glass diffuser and frame are mounted with Allen M5 screws made of stainless steel to IP65 levels of tightness, protecting the lighting unit from moisture and dust. Colour temperatures available: 4000 K, 5000 K. LED panels (IP 67) meet the PN-EN 13201-4:2007 roads illumination requirements.
